---

## SUMMARY

---

Aspiring Software Developer with a strong foundation in Data Structures and Algorithms using Java, and a growing specialization in frontend development using React and JavaScript. Currently expanding backend skills with Python and Flask, with a solid understanding of relational databases and DBMS concepts. Quick learner and collaborative team player, passionate about building clean, user-centric, and scalable web applications.

## EDUCATION

---

**University of Visvesvaraya College of Engineering**

Bachelor of Technology – Information Science and Engineering ; CGPA : 8.33

*Karnataka , India*

*December 2022 – June 2026*

## PROJECTS

---

### **VIRTUAL PRIVATE NETWORK (VPN) FOR OFFICE** | *Java, Servlets, J2EE, HTML, JS*

- Developed a secure VPN system using Java and Servlets to enable encrypted communication over public networks.
- Designed modules for Admin, Marketing, and Training to manage user data, connectivity, and role-based access.
- Implemented server-side logic on Apache Tomcat with a simple HTML and JS frontend for interaction.
- Ensured modular structure, data privacy, and real-time communication within the office network.

### **SORTING VISUALIZER** | *HTML, CSS, JS*

- Built an interactive Sorting Visualizer using HTML, CSS, and JavaScript with real-time animations of sorting algorithms.
- Implemented Bubble, Selection, Insertion, Merge, and Quick Sort with smooth, asynchronous visualizations for an engaging user experience.
- Designed a responsive, dynamic UI with adjustable array size and animation speed for flexible demonstrations.
- Gained in-depth understanding of algorithm complexities and hands-on experience with DOM manipulation and asynchronous programming.

### **CYBERSECUREX** | *HTML, CSS, JS, FastAPI, SQLite3*

- Built a web-based personal & network security toolkit using FastAPI.
- Added features like website scanning, LAN device discovery, and password strength check.
- Implemented secure file sharing with password protection and expiry options.

## CERTIFICATES / ACHIEVEMENTS

---

- Participated in National Level Hackathon “CodeFury” in the year 2024 and qualified for final round.
- Participated in BitNBuild Hackathon conducted by GDG UVCE.
- Participated in National Level Volleyball Competition
- Sports Captain at Jawahar Navodaya Vidyalaya

## SKILLS

---

- **Programming:** Java, C
- **Web Technologies:** HTML5, CSS3, JavaScript, Java Servlets
- **Database(s):** MySQL , SQLite3
- **Soft-Skills:** Communication, Adaptability, Leadership, Problem Solving, Time Management, Teamwork
- **Tools :** VS Code , IntelliJ IDEA , MySQL Workbench, Git, GitHub
